

WINTERINSE 2.0

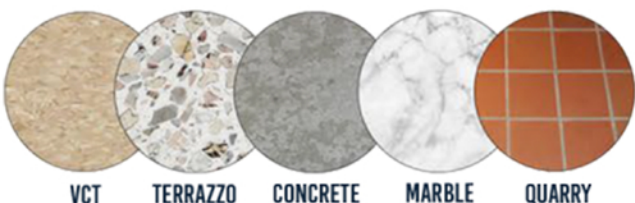

ALL PURPOSE NEUTRALIZER

Winterinse 2.0 is an all-purpose neutralizer used to ensure your floors look just as good in winter as they do in the summer. Winterinse 2.0 will eliminate the white film from ice melt residue that is deposited on your floors which could also be tracked over other flooring and carpeting. Ice melt chemicals will dull the gloss & shine of your floors. Using Winterinse 2.0, will help maintain you floor finishes for longer-lasting shine. Ice melt residue also keeps floors wet longer because of the compounds that hold water. Just mop on and off with Winterinse 2.0 and your winter floors are hassle-free.

Winterinse is excellent for use after stripping processes. Our All-Purpose Neutralizer helps resolve floor alkalinity issues. Winterinse is an earth-friendly cleaner/neutralizer that can meet the toughest indoor and outdoor environmental restrictions.

SURFACES

VCT TERRAZZO CONCRETE MARBLE QUARRY

DIRECTIONS

1. Clean floors to remove soil residues
2. Mix product per the following dilutions:
Removal of light to moderate winter salt films:
1:128 (1 US oz per gallon or 40 mL per 5 liters of water) in mop bucket or automatic scrubber
Removal of heavy winter salt films: 1:64 (2 US oz per gallon of water or 80 mL per 5 liters of water)
3. Pick up solution and allow floor to dry thoroughly.

TECHNICAL DATA

Appearance	Clear
Fragrance	None
pH ASTM E70-07	2.2
Solubility In Water	Ready to Use
Biodegradability	Complete

PRODUCT INFO

Product Code	20404
Volume	1 US Gallon
Shipping	4 x 1 Gallons
Package	4
Pallet Quantity	48
