

All-In-One Disinfection Solution.

Clean Republic Electrostatic Spray Systems

powered by
ByoPlanet's® Induction
Charged Technology™

* * *

The most innovative spray system on the market, powered by ByoPlanet's® Induction Charged Technology, allowing the user to be more productive with less effort.

Features & Benefits

- > 385% higher coverage efficacy than spray and wipe.
- > 75% reduction in labor time vs. spray and wipe.
- > 73% reduction in chemistry cost vs. spray and wipe.
- > Cover more than 18,000 sq ft per hour.
- > Allows chemistry to “wrap around” complex geometries, providing greater deposition than hydraulic sprayer, misters, and foggers — especially in hidden areas.
- > Utilizes low voltage and water-based products with Induction Charged Technology™.
- > Reduced operator safety concerns.
- > Requires a minimum amount of applicator training.
- > Unlike powder coating processes, induction charge can be used for targets that are not well grounded.

All-In-One Disinfection Solution.

Clean Republic Multi-Purpose Disinfectant

Formulated with Hypochlorous Acid

* * *

Kills 99.9% of viruses and bacteria, including killing the Covid-19 virus in 60 seconds, on hard non-porous surfaces. It is just as powerful as bleach yet safe enough to use in intensive care units and neonatal nurseries. There are no known short or long-term health risks associated with its prolonged use.

Features & Benefits

- Kills 99.9% of bacteria and viruses.
- EPA approved to kill the Covid-19 virus in 60 seconds on hard, non-porous surfaces.
- EPA category IV toxicity rating.
- pH-neutral. Made with only salt, water and electricity.
- Non-corrosive. Non-bleaching.
- No harsh chemicals or fumes.
- No respiratory exposure risk detectable in the air post spray.
- Best-in-class residue testing. No sticky residue.
- Can be applied for use via electrostatic sprayer.
- No scent. No residue.
- No wiping necessary.
- 100% US-based supply chain.
