About Expanded Technologies

Floor, Furniture and Surface Protectors for All Environments

The First Peel and Stick Heavy Duty Felt Pads

Over 30 years ago Richard Bushey was remodeling a turn of the century schoolhouse with original pine floors, when he realized that the scrapes and scratches on the floors were caused by the constant movement of chairs and desks. His solution? The first peel and stick heavy duty felt pad to place under furniture legs. They protect floors from scratches, gouges, and dents and can help reduce the movement stress on furniture joints when furniture moves with difficulty.

Expanding Product Line

Richard Bushey began manufacturing felt pads in 1981, and Expanded Technologies was founded in 1987. Bushey has continued to invent

ingenious ways to protect floors and furniture, and today the company offers a variety of products. He still holds many related patents for surface protection products, and the company is one of the top three in the U.S. for this category.

Useful in All Environments

Expanded Technologies products are helpful in any environment: homes, offices, hospitals, restaurants, hotels, and schools. The products reduce maintenance costs by providing a variety of solutions that reduce damage and wear caused by furniture.

Show & Tell Sales Kits

Expanded Technologies' full size sample kit holds up to twenty-five different product samples. Our new mini kit holds samples of 5 of our best selling items in a small, easy to carry case.

Now, you can examine each product closely and even test them. Samples are easy to find in the plastic partitioned box. Simply look at the interior diagram to find the correct product. Each image is clearly labeled with recommended surfaces, available sizes, colors and packaging choices.

Our Most Effective Sales Tool!

Show & Tell Sales Kits Include:

Item # DISP0069

- Clear Sleeve® Floor Protectors, 1", 1¼", 1½", and 1¾"
- Tap In Sliders, 1"
- Heavy Duty Tap In Felt Pads, ¾"
- Replacement Chair Tips with Felt / Walker Tips, 1½"
- Replacement Chair Tips with Felt, 1", ¾", ¾"
- Formed Felt® Floor Savers®, 1" and 1¼"
- Slip-On® Floor Savers®, 1½" and 1¼"
- Wrap-Around® Floor Savers®, large and small
- Wrap-Arounds® for Music Stands, ¾" x 1½"
- CasterTire® Floor Savers®, ¾" x 1¼"
- Slip-Over® Floor Savers®, 1½" and 1¼"
- Snap-On Floor Savers®, 1¼"
- Heavy Duty Felt Pads, ¾", 1", and 1¼"

Cost credited after \$500 in sales!

Mini Sales Kits Include:

Item # DISP0074

- 1½" Slip-Over Floor Saver®
- Large Wrap-Around® Floor Saver®
- 1" Felt Pads
- 1½" Slip-On Floor Saver®
- ¾" & 1½" Chair Tips with Felt
- Measuring Tape

Customization available for your company. Minimum orders apply.

Doorstop Kits Include:

Item #Doorstop-kit

- Yellow Gripper® Doorstop
- Grey Safety Release Flip Down Doorstop
- Blue Door Wedge

Expanded Technologies' Products Outperform the Competition

The felt and adhesive materials used in Expanded Technologies' products were tested against the products from the leading competitors. In every category, the materials used by Expanded Technologies performed significantly better. The results are shown in the table.

Adhesion Tests (Test #101 – Tensile Test and Test #102 – Shear Strength)

By testing the adhesion of the heavy duty felt pad, it can be assessed how likely the pad is to stick to the furniture leg. The pad must adhere to the furniture leg in order to provide benefits. The tests determine how well a pad can withstand the forces of pull and shear caused by furniture sliding.

Density Tests (Test #201 – Porosity Measurement and Test #202 – Compression Measurement)

By measuring the porosity of the heavy duty felt pad, the usable space for dirt particles to collect can be measured. There must

be sufficient space for dirt particles to be absorbed within the felt pad. Without this space, the dirt particles will remain on the outside of the felt pad and could cause marks and scratches to floors.

Pliability Tests (Test #301 – Pliability Measurement)

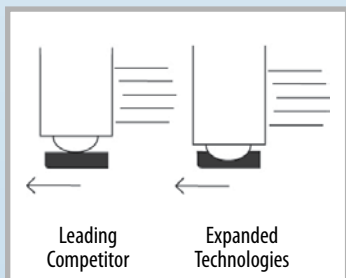

By measuring the pliability of the heavy duty felt pad, the ability of the pad to adapt to the shape of the furniture leg can be determined. The felt pad must cover the bottom of the furniture leg to afford maximum protection and ensure that the pad stays attached to the leg.

Durability Tests (Taber Test)

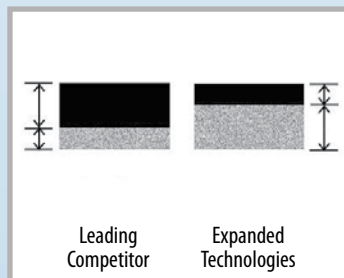

By measuring the durability of a felt pad, its longevity can be estimated, based on the extent of the wear caused by pressure and friction applied to the pad. The Taber Test is used to correlate felt loss from furniture moving. There is pressure and friction applied against the pad as furniture is moved.

Performance Test	Expanded Technologies	Leading Competitor	Expanded Technologies Compared to Competitor
Test #101, Tensile Strength	43 lb	15 lb	+187%
Test #102, Shear Strength	83.5 lb	69 lb	+20%
Test #201, Porosity Measurement	65%	59%	+10%
Test #202, Compression Measurement	50%	20%	+150%
Test #301, Pliability Measurement	13.7 lb	26 lb	+89%
Taber Test, Durability Measurement	2.7% felt loss	4.3% felt loss	+160%

Heavy Duty Felt Pads reduce noise and protect floors from scratches, dents, and rust stains. With peel and stick backs, our heavy duty felt pads help keep furniture joints from loosening, protect any type of hard floor, and reduce noise associated with sliding furniture.

Use Heavy Duty Felt Pads to

- Protect floors from scratches and dents
- Guard against rust stains
- Help prevent furniture joints from loosening
- Reduce noise

Slip-Over® Floor Savers®

Slip-Over® Floor Savers® protect hard floor surfaces from damage. The Slip-Over® consists of a reinforced felt bottom and a vinyl sleevelet that encases the existing chair or table glide. The sleevelet is designed to fit snugly around an existing glide and to stay on tightly, without adhesive. The Slip-Over® prevents floor damage and reduces noise associated with moving furniture. Our installation tool, included free with the purchase of 100 or 1000 piece packages, makes installation easy on most swivel glides.

Use Slip-Over® Floor Savers® to

- Protect floor surfaces from scratches and rust stains
- Help keep rooms quiet by reducing noise when moving chairs and tables
- Reduce furniture damage by alleviating stress on joints
- Extend the life of original furniture glides

Recommended for

Hardwood floors, VCT, vinyl, linoleum, finished concrete and ceramic tile floors

Sizes

- 1¼" (fits over ¾" to ⅞" glide)
- 1½" (fits over 1" to 1⅝" glide)

Slip easily over round or square legs

Slip-On® Floor Savers® protect hard floor surfaces from damage. The tough Slip-On® consists of a vinyl sleeve with a reinforced rounded felt bottom. Simply slide Slip-On® Floor Savers® over chair and table legs to prevent floor damage and to reduce noise associated with moving furniture. They slip easily over round or square legs and have been re-engineered to grab the chair leg even tighter. Slip-On® Floor Savers® last at least four times longer than standard felt protective pads.

Use Slip-On® Floor Savers® to

- Protect floor surfaces from scratches and rust stains
- Help keep rooms quiet by reducing noise when moving chairs and tables
- Reduce furniture damage by alleviating stress on joints
- Extend the life of original furniture glides

CasterTire® Floor Savers®

Recommended Uses

- Chairs
- Appliances
- Tables
- Computer chairs

CasterTire® Floor Savers® convert damaging, hard plastic casters into soft, quiet, floor saving wheels. Standard hard plastic casters cause scratching and damage to VCT and hard surface floors by grinding in dirt and grit. Our universal CasterTire® is made of soft non-marking vinyl and is recommended to protect all surfaces, especially VCT, hardwood, and ceramic tile.

New Model now available with easier to install shrink wrap method

Recommended for

Hardwood floors, VCT, vinyl, linoleum, finished concrete and ceramic tile floors

Use CasterTire® Floor Savers® to

- Fit over existing hard plastic caster wheels
- Prevent floor damage and reduce maintenance costs
- Make casters roll smoothly and quietly
- Prevent sliding and skidding
- Prevent floor marking
- One size fits 1¾" – 2¼" plastic casters

Soft Wheel Casters

Hard Wheel Casters

Hard Wheel Casters with wide base

Bell Glides

Felt Bottom Bell Glides

Floor Saver® Caster Wheels and Bell Glides

Improper casters cause major floor damage. We have replacement casters and bell glides specially designed for either hard or carpeted floors that greatly reduce the chance of a chair causing floor damage. Our nylon hard wheel models roll through carpeting to avoid snags and permanent indentations, while soft wheel models protect hard floors from scratches and scuff marks. Bell glides convert rolling chairs to stationary, with felt pads that protect all hard surfaces. Choose weight capacities of 110 lb to 120 lb per wheel.

Why Use Floor Saver Caster Wheels and Bell Glides

- Prevent floor damage and reduce maintenance costs
- Roll smoothly and quietly
- Avoid sliding and skidding

Floor Saver Caster Wheels and Bell Glides are recommended for

Carpet, hardwood floors, VCT, vinyl, linoleum, finished concrete and ceramic tile floors

Wrap-Around® Floor Savers®

Now in black!

Wrap-Around® Floor Savers® provide floor protection for chairs with sled bases.

Recommended Uses

- Sled based style chairs
- Bookcases
- Desks and credenzas
- File cabinets
- Stackable chairs
- Music stands

Improvements

- Easy to apply
- Attaches to itself for longer lasting, improved hold
- Conforms to glide or rail to achieve a perfect fit
- NEW vinyl wear cushion distributes weight, causing less wear to pad and floor

Use Wrap-Around® Floor Savers® for

Sled based style chairs, bookcases, desks and credenzas, stackable chairs, and music stands

Sizes

- ¾" x 3½" Apply directly to stand or rail
- 1⅞" x 2⅜" Apply directly to rail

NEW!

Clear Wrap-Around® Floor Savers®

Clear Wrap-Around® Floor Savers® are developed to protect floors from damage caused by chairs with sled bases or rails. They are easy to install and can be applied directly to the rail or over top of the existing glide. The Clear Wrap-around® will blend in with the furniture so you hardly notice they are on.

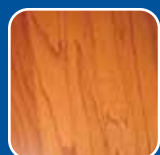

Use Clear Wrap-Around® Floor Savers® to

- Protect floor surfaces from scratches and preserve floor finishes
- Help keep rooms quiet by reducing noise created by moving chairs

NEW!

VersaGlide™ Formed Felt®

Durable and easy to install, this system consists of a nail-in nylon base and a felt protector. The disc is nailed to any wooden furniture leg, and then the peel and stick felt tip is applied to the nylon base. Since the base is convex rather than flat, pressure applied to the felt is much better distributed than if the felt were applied directly to the wooden leg. The felt is engineered for long life, but if it wears out, you simply pull it off the old felt and replace it with a new felt pad—no new nail holes!

Use VersaGlide™ Formed Felt® to

- Preserve floor finishes and stop floor scratches for all types of wood furniture
- Help keep rooms quiet by reducing noise created by moving furniture

Recommended for:

All hard floors, including VCT, LVT, and hardwood

- Protects better
- Slides easier
- Lasts 3x longer than conventional felt pads
- Cupped design locks pad in place

Recommended Surface Type

All hard floors, including VCT, LVT, and hardwood

Replacement Chair Tips without Felt

Carpet

Replacement Chair Tips reduce noise and protect all types of floors—they're perfect for schools. This durable Chair Tip consists of a vinyl sleeve and is available with or without a reinforced rounded felt bottom. Simply slide the Chair Tip over the chair leg to prevent floor damage and to reduce noise associated with moving chairs. Chair Tips slip easily over chair legs and stay put without adhesive. They are durable, and the Chair Tips with felt bottoms last longer than standard felt protective pads.

Use Chair Tips to

- Protect floor surfaces from scratches and rust stains
- Help keep rooms quiet by reducing noise when moving chairs
- Reduce chair damage by alleviating stress on joints

Wobble Chair Floor Savers®

Wobble Chair Floor Savers® are designed to eliminate floor damage and noise caused by wobble chairs. They are manufactured from soft, flexible, ultra durable material that adheres quickly and securely to the bottoms of the chairs, which are often used in classrooms with young children to help keep them focused. The peel and stick pads are attached to the bottom of any wobble chair to prevent floor scratches and reduce noise.

Use Wobble Chair Floor Savers® to

- Protect floor surfaces from scratches and preserve floor finishes
- Help keep rooms quiet by reducing noise created by students rocking on the chairs

Recommended for
VCT, LVT, and hardwood

Gripper® Pads

Gripper® Pads stop furniture from moving and sliding and reduce vibration. Made of thick, flexible vinyl with peel and stick backs, these Gripper® Pads protect floors from scratches and guard against rust stains. Placed under machines like washers and dryers, they help absorb vibration.

Use Gripper® Pads to

- Stop furniture from moving and sliding
- Guard against rust stains on floors

Recommended for
All floors, especially hard surfaces like marble, ceramic tile, vinyl, and wood floors

Protective Felt Strips

Recommended Uses

- AV carts
- Garbage carts
- Maid carts
- Brooms
- Mop buckets
- Tables
- File cabinets
- Desks
- Chests
- Rocking chairs
- Bookcases

Protective Felt Strips have unlimited uses. They protect walls from damage caused by moving carts and protect floors from scratches, dents, and rust stains. With peel and stick backs, they are easy to apply and will protect all types of hard floors or walls and reduce noise associated with sliding furniture.

Use Protective Felt Strips to

- Prevent damage to walls caused by moving carts
- Protect floors from long flat surfaces like the bottom of a bookcase, a rocking chair, file cabinet, etc.
- Reduce noise from sliding furniture

Clear Sleeve® Floor Protectors

Recommended Uses

- Desks
- Folding chairs
- Table legs
- Bar stools

New Clear Sleeve® Floor Protectors prevent damage normally caused by moving furniture. The transparent, flexible sleeve securely forms to the size and shape of chair or table legs, eliminating the need for adhesive. The cushioned felt tip lasts longer than standard felt pads, dampens noise, and distributes weight evenly for better furniture wear.

Use Clear Sleeve® Floor Protectors to

- Protect floor surfaces from scratches and rust stains
- Distribute weight evenly to increase furniture longevity
- Reduce noise associated with moving furniture

Recommended for

All hard floor surfaces

Sliders help move furniture easily and keep furniture joints from loosening. They are polymer discs with padded peel and stick backs. Placed under heavy furniture, like file cabinets and bookcases, sliders help move large items without scratching the floor and help prevent them from falling over while moving. Placed under smaller pieces of furniture, they help to slide tables and chairs across carpets—or any other surface—effortlessly.

Use Sliders to

- Protect carpet from snagging and tearing
- Slide furniture easily across floors
- Slide heavy file cabinets and bookcases effortlessly across carpets

Commercial Grade Sliders

Commercial Grade Sliders protect floors in the most rugged commercial environments. A unique, form-fitting adhesive system keeps the sliders on furniture legs during heavy use. With this system, the adhesive foam pad compresses and actually molds around the leg and adheres to it, so the pads and sliders stay firmly in place.

The Commercial Grade Sliders help move furniture easily and prevent furniture damage by alleviating stress on joints. Commercial Grade Sliders are recommended for any heavy use application such as schools, restaurants, hotels, and offices.

Use Commercial Grade Sliders to

- Protect carpets from snags and tears
- Slide furniture easily across carpets
- Reduce furniture damage by alleviating stress on joints
- Protect against rust stains
- Stabilize furniture on uneven floors
- Keep tables from wobbling

Slide-All® Sliders

Recommended Uses

- Large furniture
- Industrial equipment
- Bookcases
- File cabinets
- Exercise equipment
- Armoires
- Beds
- Couches
- Office partitions

Slide-All® Sliders help move large furniture and equipment easily, protect carpet and flooring and keep furniture joints from loosening. They are specially formulated reusable sliding disks with a non-skid foam backing. Placed under heavy furniture and equipment, like sofas, file cabinets, bookcases, fitness equipment, and factory equipment, Slide-All® Sliders help move large items and help prevent them from falling over while moving. Slide-All® Sliders make it possible for one person to move things that might normally require two or three people. Rearranging layouts for fitness centers, offices or factories is easy and fast with Slide-All® Sliders.

Use Slide-All® Sliders to

- Slide heavy furniture and equipment easily across floors
- Slide heavy sofas, file cabinets and bookcases effortlessly across carpets
- Protect carpets from snagging and tearing
- Protect hard floor surfaces from scratching with Slide-All® Sliders with Felt

Bumper Pads

Super Quiet Bumper!

Polyurethane and Felt Bumpers protect surfaces from damage caused by smaller items when they are moved. Place the bumpers on cabinet drawers and doors to prevent noise and absorb impact when they shut. Polyurethane bumpers can also be used on electronic equipment or cutting boards to stop them from vibrating and moving. The acrylic adhesive will prevent the bumper from coming off during use.

Formed Felt® bumpers were created to fit on the outer edge of inset doors and drawers. Its design stops the bumper from compressing, increasing durability to prevent noise and absorb impact.

Recommended uses

- Protect surfaces and prevent items from moving
- Hold cutting boards firmly in place on all counter surfaces
- Prevent speakers, electronics, and computer equipment from vibrating and moving

Recommended for

Cabinet doors, drawers, picture frames, sliding doors, computers, appliances, office equipment, desktop calculators, door jambs, outer edge of inset doors and drawers

Safety Release Flip Down Doorstops

On the Door, Off the Floor

Recommended Use

- Restrooms
- Break rooms
- Hotel rooms
- Janitorial closets
- Entrance doors
- Auditoriums
- Kitchen doors
- Cafeterias

Locations

- Schools
- Offices
- Hospitals
- Homes
- Restaurants
- Stores
- Nursing homes
- Warehouses

How to Install

Our modern Flip Down Doorstop combines versatility, functionality and durability for the ultimate doorstop. Easy to install, the clip automatically adjusts to fit residential or commercial doors, and the swing arm is adjustable to fit floor clearances greater than ¼" and less than 2½". Once installed, simply flip the arm down to engage and lift to disengage. Our Flip Down Doorstop will not damage either the door or floor. In case of an emergency, the arm will release when sufficient force is applied to the door.

Once they're installed, these doorstops stay put!

Installs in seconds

- Clips onto the door
- No tools needed

Easy to use

- Flip down—it's a doorstop
- Flip up—it tucks out of the way
- Easily adjusts, while in the upright position, for different door or floor clearances greater than ¼" and less than 2½"
- Operates with your foot or hand

Eliminates trip hazards

Releases with force in case of emergency

How to operate

To engage the Flip Down Doorstop:

Flip the arm down with your foot or hand

To release the Flip Down Doorstop:

Lift the arm up with the side of your foot or hand

Shape	Color	1 pc	12 pc	24 pc
	Grey	017003	017003-12pc	017003-24pc

Slide clip onto the bottom of the door. Requires ¼" clearance between door and floor. Locate the proper hole setting. Arm should be set at approximately 60° to 80° when in the down position.

Spread swing arm in the upright position (**swing arm only adjusts in the upright position**).

Insert hinge pins into the proper holes.

Use hand or foot to engage or disengage. Swing arm can be reversed if desired.

Door Wedges

The Door Wedge fits securely between the door and door jamb to keep doors open. For standard doors, simply place the wedge above the hinge, between the door and the door jamb. For doors with overhead closers, the wedge may be placed between the door closer arm and door jamb. Made from durable, dense foam, the Door Wedge is sturdy and braces the door securely, yet will not damage the door or bend the hinge. With the Door Wedge, the floor remains clear, making it an ideal tool for cleaning or moving crews.

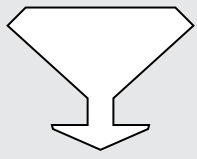

Recommended uses	Size	Recommended for	Color
• Floor Maintenance	Depth 2¾"	Any type or size door	Blue
• Floor Cleaning	Height 1¼"		
• Moving	Width 3"		

Recommended Uses

	016064-24PC	24
	016064-B	100

How to Install

Standard Doors

Place the Door Wedge above the hinge, between the door and the door jamb.

Overhead Closing Doors

Place the Door Wedge between the door closer arm and door jamb.

NEW!

VersaPull™ Hands Free Door Opener

The VersaPull™ allows you to open doors while reducing the chance of spreading germs. It features a universal design and is mounted near the handle for arm operation or at the bottom of the door for foot operation. Made from strong, durable material, these openers are gentle on shoes and arms, unlike metal door pulls, and are easy to clean. The flexibility to use either hands or feet makes it easier to open heavy doors, because using your foot in those situations can be difficult. VersaPull™ is ideal for public restrooms, offices, and commercial facilities to slow or prevent the transmission of viruses and bacteria.

Includes everything needed for installation

- VersaPull
- Hardware
- Operation decals
- Drilling template

Why use VersaPull Hands Free Door Opener

- Easy to use
- Durable, long lasting design
- Attach to any door
- Dual mounting options for either foot or arm operation
- Three year warranty

VersaPull is recommended for

Public restrooms, offices, schools and commercial buildings

Gripper® Doorstops

"The Door Stops Here"

Recommended Uses

- Floor maintenance
- Cleaning
- Moving

Recommended for

Any type or size door

The Gripper® Doorstop hooks onto maintenance carts to travel easily between jobs. Place it under any door.

Made of sturdy industrial vinyl, the Gripper® Doorstop is perfect for anyone who needs to prop doors open quickly, easily and securely. Their non-slip bottom will protect and grip any surface. The Gripper® Doorstop's durable patent pending design ensures that even with heavy use, its performance will not slip.

- Convenient flexible hook allows for easy transport and storage
- Durable patent pending design
- Holds door in any position
- Non-slip bottom protects and grips any floor
- Easy to see, locate, and store

Recommended uses

Use the Gripper® Doorstop to hold doors open during

- Deliveries
- Routine maintenance
- Construction projects

Terms & Conditions

Terms

Our terms for approved customers are Net 30 days. We welcome your company check, Visa, or MasterCard. We charge \$25 for each returned check. Recurrent bounced checks will result in instituting terms of C.O.D. cash.

Initial Orders

New retailers must provide a certificate of Retail Tax Exemption and company ownership information. To open an account, please fill out a Credit Application. Initial orders can be placed by credit card until your account is established.

Returns

Each order is carefully picked, packed, and delivered to arrive in excellent condition. If you find a problem with your order, because it is incorrect, damaged, or defective, you must receive a return authorization number before returning any portion. Please call your Expanded Technologies representative to explain the problem. It is helpful to have your invoice number showing when you purchased the item(s). You must include the completed Expanded Technologies Return Form when you send us your returned merchandise.

All merchandise must be returned in sellable condition and will be inspected before credit is issued. A credit will not be issued for damaged merchandise. A 10% restocking fee is charged for all returned merchandise.

Expanded Technologies does not guarantee sale of any product.

Overages/Shortages

Expanded Technologies tries to ensure all orders are shipped complete. However, orders should be received and verified by your employees. If you discover a merchandise overage or shortage, please notify us within one working day.

Possession of this catalog does not constitute an ability to purchase from Expanded Technologies.
