Battery charger	■

■ included in delivery.

Removes dust and spills

- Wipe and pick up dust, small crumbs and pet hair in one step.
- Unlike the competition, a Kärcher can clean right up to the edges of walls and baseboards

Mopping is 20%* cleaner than with a traditional mop and much more convenient

- 2-tank system: Permanent wetting of the rollers from the fresh water tank while the dirty water is collected in the waste water tank.
- Effortless: No dragging a bucket around, no wringing, no scrubbing
- Rollers are machine-washable up to 140°F.

Approximately 20 minutes of battery life from the powerful lithium-ion battery

- Maximum freedom of movement when cleaning, thanks to being independent from power outlets - no need to keep changing outlets.
- Three stage LED display acts as an intuitive battery level indicator.
