Providing Quality Maintenance and Chemical Specialty Solutions with Unparalleled Customer Service

CLEANCHECK® TRAINING SYSTEM

Your employees are your most valuable resources. To ensure quality workmanship, thorough and effective training is a must. Whether training existing employees or new hires, CleanCheck is the ultimate tool for instilling pride and professionalism, building confidence, minimizing complaints, and cost-effectively managing the talents of your workforce. Spartan's trilingual, web and DVD-based CleanCheck Training System makes fast work of administering instructor-led and self-directed training. CleanCheck modules cover basic and advanced topics for a variety of cleaning operations, including specialty facility areas. Plus, comprehensive Safety modules thoroughly demonstrate Bloodborne Pathogen Standards as well as OSHA Compliance. CleanCheck meets the requirements for the CIMS-GB Standard as well as CMI Advanced Standards. Online and hard copy testing adapts to both individual and group training situations. CleanCheck ensures that your staff will master the proper cleaning procedures that promote a safe and clean environment.

TRAINING VIDEOS

The CleanCheck Training Videos provide step-by-step procedural instruction on cleaning specific areas in your facility. Each video module covers the cleaning process end-to-end, but is also offered in single chapters so specific tasks can be easily revisited or re-trained. Available in English, Spanish and French, CleanCheck video modules also offer DVD or web-based viewing to meet the needs of your diverse and dispersed organization.

TRAINING MANUAL

The CleanCheck Training Manual includes detailed instructions on proper cleaning and procedures. Pages can be used as a handout during employee training, or a reference for employee training and retraining. As with all CleanCheck components, images and color-coded product categories reinforce the procedures taught in the instructional video modules.

ON-THE-JOB CARDS

The CleanCheck job cards allow employees to perform each cleaning step with confidence when they're ready to clean by themselves. Housed with dual rings, you can easily separate and customize your card set based on which employees will need which job cards depending on their cleaning tasks. Employees can simply check off each step as it's completed with the provided erasable pen. CleanCheck job cards follow the procedural instructions covered in the video modules and manuals.

Cards are bilingual (English on front, Spanish/French on back)

The image shows three overlapping CleanCheck training cards. The leftmost card is a bilingual title card for 'HOSPEDAJE' (English) and 'LODGING/HOSPITALITY' (Spanish). The middle card is a 'REQUIRED PRODUCTS' list with color-coded numbered items: 1 Glass Cleaner, 2 Disinfectant/Sanitizer, 3 All Purpose Cleaner, 4 Air Freshener, 5 Carpet Cleaner, and 10 Laundry. The rightmost card is a 'Routine Cleaning of Occupied Guest Room' checklist with 10 steps, each with a corresponding color-coded dot and a checkbox. The checkboxes for steps 1, 2, and 3 are checked, while others are empty.

COLOR-CODED PRODUCT CATEGORIES

CleanCheck utilizes color-coded product categories to identify which products are right for the job. Displayed as colored/numbered dots throughout the videos, cards, and manuals, CleanCheck includes corresponding stickers that can be applied to the actual product containers so there is a direct association between each chemical and the cleaning category identified in the training and CleanCheck job cards. This provides more assurance that the right product is used for each cleaning challenge.

ONLINE TESTING, TRACKING, AND CERTIFICATION

When training is complete, you can reward employees for a job well done. Online testing is available and provides track-able results for each employee. Test questions focus on the basic concepts, while correct answers facilitate success and professional workmanship. Personalized certificates with employee name and area mastered are available upon completion of each module. These certificates can be printed for compliance documentation and presented to employees.
