

# T600EE

## Battery-powered walk-behind scrubber

An industrial-strength, walk-behind scrubber designed to provide high-performance results, reduce costs to clean and enhance facility image.

-  Reduce costs to clean
-  Maintain health and safety
-  Enhance facility image
-  Ease of operation & maintenance

### Key Benefits

The T600 EE walk-behind scrubber is ideal for some special hazardous environments.

- Tennant is the only company that has a listed Type EE battery-powered floor cleaning machine.
- UL 583 Type EE battery-powered floor scrubbers have electrical equipment completely enclosed.
- Type EE battery-powered machines are usually mandated by the Authority Having Jurisdiction (AHJ) for use in a hazardous (classified) location.

## Possible Applications

- The T600 EE is intended for use in hazardous environments that are involved in the production, handling, processing and storage of hazardous materials such as perfumes, cosmetics, paints, printing inks, pharmaceuticals and rubbers.\*

## Configuration

- T600 EE Configuration
  - 800mm disc scrub head
  - Pro-Membrane™ control panel
  - 240 AH batteries only
  - Off-board charger or without charger only
  - Polyurethane tires
- Options
  - Manual battery watering
  - Polyurethane Hose (Oil Resistant) with Drain Control Valve
  - Parking brake
  - Pneumatic or foam filled tires
  - Transport kit/ accessory clip

# T600EE Specifications

FEATURE	SPECIFICATION
Length	65.8 in / 1671 mm
Width	33.7 in / 856 mm
Height	43.6 in / 1107 mm
GVW	1304 lb / 593 kg
Scrub Motor	2 x 36 VDC, .6 HP brush motor/ 0.45 kW
Brush Pad RPM	300 RPM
Brush Down Pressure	low: 100 lbs / 45 kg   medium: 150 lbs / 68 kg   high: 200 lbs / 90 kg
Solution Tank Capacity	32 gal / 121 L
Recovery Tank Capacity	37 gal / 140 L
Vacuum Motor	36 VDC, 1.3 hp / 1 kW 30 A
Battery Type -6 required	Standard: Wet 240AH
T600 EE - approvals (U.S./Canada only)	ETL Listed to UL 583 Type EE

*Note: The following are not available on this machine: ec-H2O NanoClean®, Severe Environment™, rinse hose with spray nozzle and Smart-Fill™.*

*\*It is the responsibility of the user to determine the suitability for use in the hazardous (classified) locations.*
