Keep your business running smoothly with Tork Xpressnap

We know you have a lot on your plate. Time is always in short supply and keeping up with all the demands can be very stressful. One common frustration in foodservice is the time spent cleaning up unused napkins on tables, which also results in unnecessary costs and waste. Checking and refilling traditional dispensers that quickly run out of napkins and making sure they are clean and hygienic are other tasks that get in the way of smooth operations. This is where the Tork Xpressnap and Tork Xpressnap Fit® traditional napkin dispensers can help you stay in control so that you can improve efficiency and meet hygiene expectations.

Improve efficiency

Tork Xpressnap one-at-a-time napkin dispensing helps customers take only what they need, cutting down unused napkin waste. Dispensers are easy to open and load and thanks to their high capacity and refill indicator you save additional time by not having to refill them as often. In fact, it's the top rated tabletop system for improving efficiency and speed².

Meet hygiene expectations

Your guests and staff have higher expectations of you than ever before. This is especially true when it comes to hygiene. Tork Xpressnap dispensers are fully covered to protect napkins from dirt and spills and are made with easy to clean materials. And since guests only touch the napkins they take, you get a napkin solution that helps you secure better hygiene.

Optimize operations

Tork Xpressnap Drive Thru Napkin Dispensers are tailored to meet increased efficiency needs. These high capacity, easy to use dispensers provide multi-napkin dispensing for fast service. They are ideal for drive thru, takeout and delivery. And they allow you to use one napkin refill for all areas of your restaurant.
